

BLOOMBERG

R&D

● Join leaders from Bloomberg Beta and Bloomberg LP for a discussion about how design and technology are shaping the way we work. With:

● In May 2015, Bloomberg opened a West Coast tech hub in San Francisco's art deco PacBell Building. It's home to members of our engineering team and Bloomberg Beta, a venture fund backed by Bloomberg LP. The hub will expand the company's unique technological footprint and attract top Bay Area engineering talent. Join Fahd Arshad (Bloomberg head of user experience), Zach Haehn (San Francisco head of engineering for Bloomberg), James Cham (a partner at Bloomberg Beta), and Bloomberg Radio & TV anchor Cory Johnson to discuss how design and technology are shaping the way we work.
